Description of good practice (max 250 characters), including the aim of the activity; indicator(s); used measures and tools; results and achievements; communication related activities.	<p>Energypartner OÜ uses only tap water for drinking and making coffee/tea.</p> <p>The purpose of this activity is to eliminate the need to buy and transport bottled water. Also to reduce the consumption of energy on cooling and heating the water.</p> <p>In order to achieve the goal, the device with water container was given up.</p>

Cost/payback period	-
Challenges in implementation	Since the new office has a kitchen (unlike the previous office), there was a common understanding that there is no longer need for bottled water since the tap water is completely drinkable.
