

## Case Study of a Good Practice in the Green Office tutoring process

<b>Good practice title</b>	Green Catering
<b>Good practice photo(s)</b>	
<b>Name of Office</b>	European Institute
<b>Type of Office (sector)</b>	NGO
<b>Website</b>	<a href="http://www.europeaninstitute.bg/en/">http://www.europeaninstitute.bg/en/</a>
<b>Country</b>	Bulgaria
<b>Tutor name</b>	Stoyan Faldjiyski
<b>Environmental aspect/management aspect</b>	Green catering
<b>Description of good practice (max 250 characters).</b>	<p>Our good practice is related to one of our most usual activity – organization of events and seminars. We also print a lot of documentation and publications but before the EGO process we have already purchased big quantities of paper and need to use them up before we move to certified one.</p> <p>So we focused on the food and beverages we provide for our trainings and seminars. We now have the policy to arrange for the catering on our own (before we were using subcontractors).</p> <p>We look to use only local and seasonal food. Like this we reduce the impact from the transport on the environment and we create some income for the</p>

	<p>local economy.</p> <p>We believe that this approach also impacts the people we work with and is therefore very good dissemination of the good practice. It takes a bit more effort to organize the event but the pleasure of the home made food and elimination of transport and plastic waste in well worth it.</p>
<b>Cost/payback period</b>	NA
<b>Challenges in implementation</b>	Prices of green goods are higher. This why we focus mostly on local and seasonal food.
<b>Replicability (yes/no)</b>	NA
